**Re: Product change notification of cover color of SV01 series**

We thank you very much for your continuous business relationship regarding all Murata products.

We would like to inform you of product color change of our position sensor products, "SV01 series".

Subject of change:

Color of product cover: **(Current) Blue to (New) Black**

	Murata PN	Type
1	SV01A■■■■■■■■■■	SMD
2	SV01L■■■■■■■■■■	Lead

Please see details at the attachment #1, Overview of change.

Any spec and part number won't change except for cover's color.

Schedule:

- Start to change: **October 1st, 2014 or later**
- Complete to change: **December 31st, 2016**

Background:

The resin material of a blue cover has been EOL at the vendor (resin manufacture) because it contains a cobalt component that has been prohibited by the Japanese new regulation about Occupational Safety and Health. Murata holds resin inventory to continue supply of current blue case products but we need to change to a black colored cover as soon as possible.

**We will start shipping a new black colored product from July 2014 without an advance notification.**

**If you have any request or any issues to change, please inform our sales representative no later than the end of September 2014.**

:

If you have any questions or requests, please do not hesitate to contact us.  
Your kind understands and cooperation would be greatly appreciated.

Sincerely yours,

---
