PHOENIX CONTACT Deutschland GmbH · 32823 Blomberg

July 2014
 Tobias Wermke

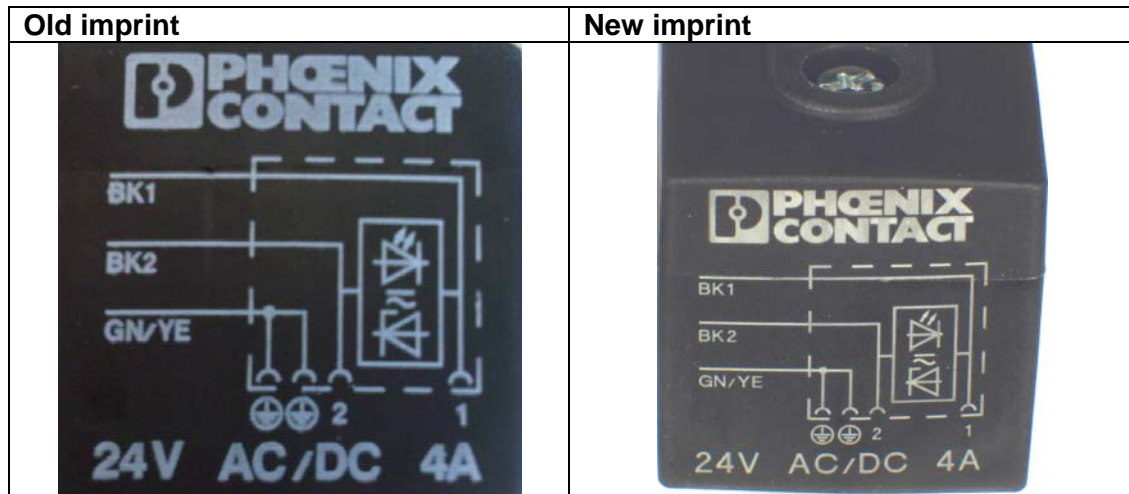

Product change

Please forward this information to your electrotechnical departments!

Dear Sir or Madam

You purchase from us assembled valve plug connectors with a corresponding imprint of wiring. In order to make this imprint more durable and resistant and to achieve a higher print quality, the future valve plug connectors will be labeled with a laser. All technical and electrical features remain the same.

Please see the difference of both printing methods on the pictures enclosed.

Furthermore, please find in the list enclosed the products that are subject to the change and are relevant for you. **The adjustment will successively be implemented in the course of the third quarter of 2014.**

Do you have any questions? You are welcome to contact our support engineer or the sales team in Blomberg.

Yours faithfully
