## Product Change Notification

1. ECN #: 261058

2. Date of Announcement: November 11, 2015

3. Series:

- BNC7T - TRUE 75 OHM, BNC STR JACK SHELL

4. Part #'s Affected

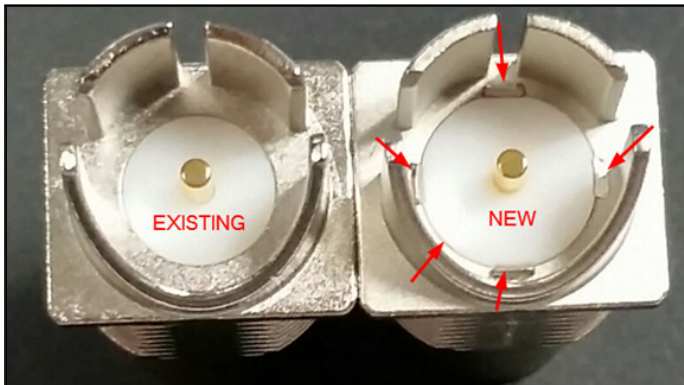

- BNC7T-J-P-XX-ST-EMXD

5. Description of Change:

Four tabs were added to the PCB termination area of the connector to increase retention on the white insulator during reflow heat. The diameter of the insulator increases from 7.32mm to 7.48mm.

6. Method of Identifying Change

The new revision of material will have 4 bent tabs equally spaced on the rear of the connector. The diameter of the insulator material from the rear of the connector will measure an estimated 7.48mm.

Existing & New Design (Rear View)

7. Reason for Change:

The four tabs were added to increase the retention of the insulator during lead free reflow processing.

8. Impact of Change on Form, Fit, or Function:

- Form - 4 bent tabs are added to the rear termination area of the connector.

9. Projected Implementation Date: December 08, 2015
