**Change of the PCB terminal block product series SPT  
Please forward this information to your electrotechnical departments!**

Dear Sir or Madam

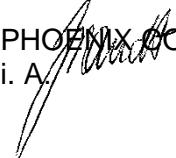

The SPT spring-cage terminal block will be changed in the area of the conductor guide. The omission of the elevation results in a virtually continuous surface. This leads to the new dimension with 0.85 mm. Please see the change of the dimension in the drawing enclosed. The change does not affect the technical features of the product. In addition, the package will be changed from 180 pieces to 200 pieces as well as the Pick-and-Place-Pad.

The new version will be delivered as of now.

Do you have any questions? You are welcome to contact our support engineer or the sales team in Blomberg.

Yours faithfully

PHOENIX CONTACT Deutschland GmbH  
i. A.
